Office Action Summary	Application No. 10/761,100	Applicant(s) BARNHOLTZ, STEVEN LEE	
	Examiner Merrick Dixon	Art Unit 1774	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reissue Application

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

2. Claims 1-42 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

Applicant's statement in the oath "The original patent 5,919,556, claims less than there was a right to claim in that it fails to include certain narrowing dependent claims" is improper.

See MPEP § 1414(II)(C):

It is not sufficient for an oath /declaration to merely state "this application is being filed to correct errors in the patent which may be noted from the changes made in the disclosure. " Rather, the oath /declaration must specifically identify an error. In addition, it is not sufficient to merely reproduce the claims with brackets and underlining and state that such will identify the error. See *In re Constant*, 827 F.2d 728, 729, 3 USPQ2d 1479 (Fed. Cir.), cert. denied, 484 U.S. 894 (1987). Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error.> A statement of " ... failure to include a claim directed to ..." and then presenting a newly added claim, would not be considered a sufficient " error" statement since applicant has not pointed out what the other claims lacked that the newly added claim has, or vice versa. Such a statement would be no better than saying in the reissue oath or declaration that " this application is being filed to correct errors in the

Art Unit: 1774

patent which may be noted from the change made by adding new claim 10." In both cases, the error has not been identified.<

3. Applicant has not clearly set forth at least one error as follows:

As set forth in *MPEP* § 1402, the most common bases for filing a reissue application are:

- (A) the claims are too narrow or too broad;
- (B) the disclosure contains inaccuracies;
- (C) applicant failed to or incorrectly claimed foreign priority; and
- (D) applicant failed to make reference to or incorrectly made reference to prior copending applications.

*According to applicant's declaration the present application now includes narrowing dependent claims. Since the original patented claims remain unchanged, applicant has not narrowed that which was originally claimed in US 5,919,556, and further, has not clearly set forth at least one error that occurred which is relied upon to support the reissue application. Applicant's basis for filing, therefore, is improper in a reissue application.

4. It is brought to applicant's attention that proper amendment guidelines for reissue applications should be followed in accordance with *MPEP* § 1453 as follows:

All amendment changes must be made relative to the patent to be reissued. Pursuant to 37 CFR 1.173(d), any such changes which are made to the specification, including the claims, must be shown by employing the following "markings:

- (A) The matter to be omitted by reissue must be enclosed in brackets; and

Art Unit: 1774

(B) The matter to be added by reissue must be underlined, except for amendments submitted on compact discs (pursuant to 37 CFR 1.96 for computer printouts or programs, and 37 CFR 1.825 for sequence listings).

5. 37 CFR 1.173(b)(2) relates to the manner of making amendments to the claims in reissue applications. It is not to be used for making amendments to the remainder of the specification or to the drawings. 37 CFR 1.173(b)(2) requires that:

(A) For each claim that is being amended by the amendment being submitted (the current amendment), the entire text of the claim must be presented with markings as defined above;

(B) For each new claim added to the reissue by the amendment being submitted (the current amendment), the entire text of the added claim must be presented completely underlined.

(C) A patent claim should be canceled by a direction to cancel that claim, there is no need to present the patent claim surrounded by brackets; and

(D) A new claim (previously added in the reissue) should be canceled by a direction to cancel that claim
